OLADIMEJI KEHINDE AYOMIPOSI

SOFTWARE DEVELOPER | PYTHON BACKEND | UI/UX DESIGN

Ado-Ekiti, Ekiti State, Nigeria | +234 706 971 2799 | kehindeoladimeji455@gmail.com | github.com/koladimeji01

PROFESSIONAL PROFILE

Early-career software developer with hands-on experience building and testing a full-stack expense-tracking application using Python, FastAPI, SQLite, HTML, CSS, and JavaScript. Experienced in REST API design, JWT authentication, automated testing, UI/UX design, and web deployment workflows. Brings technology training and user research experience from an NYSC placement at Kinplus Technologies, supported by a B.Sc. in Psychology and a postgraduate diploma in Human Resource Management.

TECHNICAL SKILLS

Languages & frontend: Python, JavaScript, HTML5, CSS3, Tailwind CSS

Backend & databases: FastAPI, REST APIs, Pydantic, SQLite, SQL fundamentals, JWT authentication

Tools & workflows: Git, GitHub, VS Code, pytest, Postman/API testing, Vercel, Render, environment configuration

Design & collaboration: UI/UX design, wireframing, prototyping, user research, technical documentation, training facilitation

SELECTED SOFTWARE PROJECT

FundHaven (formerly BudgetWise) — Full-Stack Expense Tracker Personal project | 2026

- Built a personal finance application with expense tracking, budgets, savings goals, reporting, and dashboard summaries using FastAPI, SQLite, HTML, CSS, and JavaScript.
- Developed REST endpoints for account registration, login, expenses, budgets, goals, and dashboard data; implemented JWT-based access control and request validation.
- Wrote and debugged automated backend tests, achieving 58 passing tests in the reported test suite.
- Integrated frontend pages with authenticated API requests and worked on production deployment, configuration, and security hardening using GitHub, Vercel, and Render.

PROFESSIONAL EXPERIENCE

Kinplus Technologies — NYSC Placement 2025–2026

HR Support, Digital Skills Training, UI/UX & Community Development

- Coordinated and facilitated 5+ digital-skills and productivity workshops, supporting training for 15+ students and small business owners.
- Collected and reported feedback from 20+ participants to assess learning outcomes and improve subsequent sessions.
- Completed 6+ UI/UX design projects and conducted research with 20+ users to inform wireframes, prototypes, usability, and task-flow improvements.

Meji Meji Media, Oye-Ekiti — Customer Service / Secretary 2018–2019

- Responded to client enquiries through phone, email, and social media, providing service information and resolving or escalating concerns.
- Managed correspondence, records, and administrative communications while maintaining confidentiality.

EDUCATION

Postgraduate Diploma, Human Resource Management 2025

International College of Safety and Management Professionals (ICSMP)

B.Sc., Psychology 2019–2024

Federal University Oye-Ekiti

ADDITIONAL TRAINING & STRENGTHS

UI/UX design • HR and workplace training • Stakeholder communication • User-centred problem-solving • Teamwork • Documentation and reporting
